### ***City Receives \$100,000 Grant for Grand Junction***

**Westfield, IN** – At last week’s Mayor’s Yellow Tie ball, Mayor Andy Cook announced that the City of Westfield is the recipient of a \$100,000 grant from the Legacy Fund. The grant money will be used specifically for the Grand Junction Downtown Redevelopment Project recently approved by the Westfield City Council.

“I was ecstatic to have been able to make that announcement at our Yellow Tie Ball because the proceeds from the ball will benefit downtown beautification,” says Westfield Mayor Andy Cook. I want to thank Brad Little and the Legacy Fund for constant community support,” says Cook.

“This grant is much needed, especially in this poor economic climate,” says Grand Junction Task Group President, Jim Anderson. “I am extremely confident that because of this funding we can begin making progress and ultimately spark further downtown development,” says Anderson.

For additional information and interviews, please contact at the above listed numbers.
